*This certificate is subject to annual renewal by attestation of schedule 1-152 according to the procedures of Danish Indoor Climate Labelling. Danish Indoor Climate Labelling may withdraw the rights to use this certificate in case the manufacturer does not meet the requirements.*

## Schedule 1-152

Labelling license holder:

**Sørensen Læder A/S**

Lægårdsvej 19

8520 Lystrup

The certificate was first issued on: **9<sup>th</sup> april 2021**

The certificate is issued based on emission and sensory testing of:

Triumph Grib 5 – Dark Grey 43482

### Labelling license basis

*Danish Indoor Climate Labelling*: Testing and labelling criteria for Furniture 4th edition, 2018. The maximum time-value according to the criteria is determined as 60 days.

The labelling license covers products considered to be identical with the tested product regarding indoor climate characteristics as specified by the labelling criteria.

The labelling license is based on results of chemical analyses as well as sensory evaluations. The indoor-relevant time-value is determined on basis of the results of sensory evaluations. Declared time-value:

**10 days**

### Product information requirements

The holder of the labelling license is required to present the following product information on demand in order to avoid any adverse effects of the product on the indoor climate in practice: product specifications, a list of trade names covered by the labelling license, guidelines for transport, storage, assembly, cleaning and maintenance.

### Monitoring and renewal of labelling license

Danish Indoor Climate Labelling monitors and exercises control in accordance with its procedures in force at any time. The certificate is valid only in combination with the present schedule stating the dates of renewal and expiration and signed by the certification manager of Danish Indoor Climate Labelling.

The application for renewal of the labelling licence filed by the holder of the labelling license has been considered according to the requirements of the Danish Indoor Climate Labelling with a satisfactory result:
